January 2017

MESSAGE FROM PRESIDENT BEAVER

Well, January is the month I can identify with things. We are half way through the school year so we are half way through our school programs. We are half way into winter and half way to spring.

January has been cold, wet and full of ice and snow, but we have trudged through and continue to complete our programs and progress. No matter how painful to get up out of bed on those Thursday cold mornings we find gifts of that adversity in our friendships with each other.

January also means that I am half way through my Presidency. Oh wow doesn't time fly when you are having fun. For many years like our universal force like grass that pushes its way through concrete, we are a force that turns heads, an energy that blesses this community, the essential presence of our nature that turns our work to helping girls and women. We are more resilient than ever and we continue to make our girls in the community resilient to their challenges. "I spend time talking in the classroom explaining that we are all hard wired to bounce back. Our programs are a history of one big drama of human overcoming. "It's all about bouncing back." So continue to get up ladies, be influenced by who we truly are and by those around us. February will be cold, but it is truly the heart of almost to spring. Keep going when the mornings get tough.

Recipe for the table of life and health:
